Technical Information

SchedaLease SRC-2408

SchedaLease SRC-2408 is a water based release coating system designed for coatings when non-transfer of release coating, high temperature stability, high degree of slip, and abrasion resistance of the release film are important.

SchedaLease SRC-2408 is water thin liquid and ready to use. The release system becomes functional after cure. The release film is micro thin and stable until 260°C.

SchedaLease SRC-2408 adheres to almost all kind of media / surfaces and provides no transfer to parts.

Properties:

Colour: white
Density: 1,0 g/cm³
Self life: 12 months

Application Field:

Release paper for rubber, all kind of rubber-types - except silicone rubber

Advantages:

1. Water based
2. Easy to apply
3. Provides true multiple releases between application
4. Non greasy, non contaminating coating
5. Excellent performance of produced parts (dry, uniform, semi-gloss finish)
6. Universal for all rubber-types
7. Fitting matting agents can be offered as well

Application:

Surface must be clean. Apply thin coat of **SchedaLease SRC-2408**.

Allow a short drying time after coat – higher drying temperature will help to shorten curing time..
